LEGISLATIVE RESEARCH COMMISSION (LRC) ENERGY POLICY ISSUES

COMMITTEE MEETING

March 21, 2012

Questions and Answers

**Presentation on Project Alpha in Clinton, North Carolina, and the regulatory
hurdles with nitrogen application rates on sprayfields.**
Mark Conlon, Vice President of Sector Development
Biofuels Center of North Carolina

Senator Rabon: How will these 300,000 tons of end product be transported, by rail or truck?

Mr. Conlon: By truck. It's a combination again of baled materials and materials that can be dried down will be baled. The chopped material will have to be delivered and utilized within a week.
